

ERRATUM

W. Królikowski, An Example of N -Body Quantum-Mechanical Model that Eludes the Second Quantization, *Acta Phys. Pol.* B22, 613 (1991).

In Eq. (3) the misprint

$$\gamma_2^\mu = \gamma^5 \otimes i\gamma^5 \otimes i\gamma^5 \gamma^\mu \otimes 1$$

should be corrected to

$$\gamma_2^\mu = \gamma^5 \otimes i\gamma^5 \gamma^\mu \otimes 1.$$
