

## ERRATUM

**J.G. Cardoso**, Twistor–Diagram Representation of Mass–Scattering Integral Expressions for Dirac Fields, *Acta Phys. Pol.* **B23**, 887 (1992).

In the caption of Fig. 1 in the sentence “For either field ... ” instead of  $N + 1$  it should be  $N + 2$ . On page 897 in lines 8 and 10 from bottom the words “twistor” should be replaced by “twistors”.

**J.G. Cardoso**, Two–Component Spinor Formulation of the Maxwell Theory, *Acta Phys. Pol.* **B23**, 907 (1992).

On page 916 the right-hand side of the first step of Eq. (2.39) should read:

$$\left(\frac{1}{2}\varepsilon_{CB}\square + \nabla_{A'}(C\nabla_B^{A'})\right)\phi^{AB}(x)$$
