

ERRATUM

Andrzej M. Oleś, Magnetic Order in Transition Metal Oxides with Orbital Degrees of Freedom, *Acta Phys. Pol. B* **32**, 3303 (2001).

The label for the nine-fold degenerate high-spin ($S = 1$) ground state of a d^2 ion in t_{2g}^2 configuration, shown in Fig. 1(b) and mentioned in Sec. 3, should read 3T_1 (and not 3A_2). This typographical error has no consequences on the content of the paper.
