Hollis Williams

A Jang Equation Approach to the Penrose Inequality for Perturbations
of Schwarzschild Spacetime

Acta Phys. Pol. B **52**, 1461 (2021)

Equations (6a) on page 1463 and (21) on page 1468 should read

$$2c(e_1)\frac{\partial\sigma}{\partial x} = 2c(e_2)\frac{\partial\sigma}{\partial y} = -c(e_3)\frac{\partial\sigma}{\partial z}$$
