Note on Spin(3,1) Tensors, the Dirac Field and $GL(k, \mathbb{R})$ Symmetry

Acta Phys. Pol. B **55**, 7-A2 (2024)

Addendum

Recently we have been informed by Professor A. Herdegen about old papers [1, 2] which are relevant to our work. We are grateful for his interest. Both papers are pertinent to the final pages of the third Section of our work.
